EDUCATION

Colorado School of Mines | Golden, CO
Computer Science (Business Specialty)

Currently Enrolled - Class of 2029

Thomas Jefferson High School for Science & Tech | Alexandria, VA
4.2 GPA - 1560 SAT

June 2025

- Relevant Coursework: Machine Learning, Computer Vision, Artificial Intelligence, Multivariable Calc, AP CS (5)

TECHNICAL SKILLS

Languages: Go, Python, Rust, C++, Java

Frameworks/Libraries: React, Node.js, TensorFlow, Pandas, Scikit-learn, Sveltekit

Tools: Git, Docker, Kubernetes, AWS

RESEARCH & PROJECTS

WeTrade - Go, Python, HTML/CSS (React)

September 2024 – May 2025

- Built a fully **autonomous stock trading bot** leveraging **large-scale news scraping**, real-time **sentiment analysis**, **LSTM-based forecasting**, and **technical indicators**; developed a **web platform** to manage the portfolio and interact with the bot.

Auditory InSights - Python, Hardware Integration

December 2023 – February 2024

- Developed **augmented reality glasses** that visualize audio cues (such as fire alarms and sirens) for deaf users; integrated **real-time sound localization and visualization** using Python and custom hardware.

WeCode - Go, Python, HTML/CSS

March 2024

- Created an **AI-powered educational website**, specializing in programming. Delivered **personalized lessons**, **assignments**, and **real-time feedback** to users; deployed web app with Go backend.

WORK EXPERIENCE

partipix – Arlington, VA

Founder

March 2025 – Present

- Developed a platform for **event photo sharing** with **facial recognition**, allowing users to view personal galleries while **controlling their privacy** by **blacklisting unwanted photos**.
- Built and managed the **full technology stack**, including backend infrastructure, frontend interface, facial clustering algorithms, and secure user authentication.

Havaya – South Sterling, PA

Overnight Camp Counselor

June 2024 – August 2024

- **Supervised** and mentored groups of **10–15 campers** around 10 years old; **planned and led daily activities** to develop **teamwork, creativity, and outdoor skills**. Organized large-scale events twice a week for 80+ campers.

safekids.ai – Fairfax, VA

Software Engineering

May 2023 - August 2023

- Built and maintained backend services for a **child online safety platform**; optimized **MITM proxy** for real-time network analysis; **updated backend** dependencies to eliminate security vulnerabilities and improve system resilience.
